Questions and short answers

01 **First week on site?**

Interview operators, map the workflow, find the baseline.

02 **Stakeholder interview?**

Ask for the last real case, not the ideal process.

03 **Scope creep?**

Written scope, change requests with trade-offs.

04 **A good demo?**

Their data, their workflow, and an honest failure case.

Engagement arc

1. Interview + shadow
2. Map workflow + baseline
3. Scope one slice
4. Build + demo weekly
5. Handoff + adoption metrics

Adoption metrics

METRIC	WHY IT MATTERS
Weekly active operators	Are they choosing it?
Override rate	Do they trust the output?
Time per case	Is the work faster?
Tickets after handoff	Can they run it alone?

How to answer

DO

- ✓ Use a real story, with numbers
- ✓ Say what you said no to
- ✓ Name the decision owner
- ✓ Plan the handoff from day one

AVOID

- ✗ Only talk about tech
- ✗ Promise everything
- ✗ Demo on sample data
- ✗ Leave without a runbook

Practise these

- [x] A stakeholder interview, role-played
- [x] Map a workflow in 10 minutes
- [x] Turn notes into a one-page scope
- [x] Five-minute demo with a failure case
- [x] Define three adoption metrics

FDE INTERVIEW PREP #08

KEY TAKEAWAY

Find the real problem, scope it small, and hand it over well.

→ Interview operators, not just sponsors

→ Scope one slice with a baseline

→ Measure adoption after handoff

YOUR TURN

Which customer skill was hardest for you to learn as an engineer?
